Session Title : From Stitching Floors to Smart Factories: How AI is Transforming Garment Manufacturing

Date : 4th August 2025, Monday

Time : 4:00 PM IST - 5:00 PM IST

Mode : Virtual / Online

Key Takeaways for Students:

- Understand how AI, automation, and robotics are reshaping apparel production.
- Explore emerging career paths in fashion tech, smart manufacturing, and sustainable design.
- Discover how engineering and entrepreneurship are driving innovation in rural India.
- Gain insights from real-world use cases like India's first T-shirt vending machine.

This powerful session will be led by **Mr. Jaiprakash**, a visionary Startup & Innovation Consultant, Garment Manufacturing Expert, and Rural Development Strategist with over 15 years of experience in the apparel industry. As the Founder of UNIVERCITI and Managing Director of JP Clothings, he has scaled a ₹30 crore enterprise and pioneered AI-integrated garment manufacturing and sustainable retail models.

Note:

Students will receive the session link to their registered email id from Pod to attend the session.

Prof. (Dr.) Prachet Bhuyan
Professor & Dean (T&P), KIIT-DU
